ERGONOMICS

Taylor & Francis
Taylor & Francis Group

CONTENTS OF VOLUME 51

Volume 51 Number 1 January 2008

SPECIAL ISSUE: THE FUTURE OF ERGONOMICS?
GUEST EDITORS: NEVILLE A. STANTON AND ROB B. STAMMERS

Editorial
Bartlett and the future of ergonomics
N.A. Stanton and R.B. Stammers 1

Articles
The future of ergonomics/the future of work: 45 years after Bartlett (1962)
C.G. Drury 14

From theory to practice: commentary on Bartlett (1962)
G.R.J. Hockey 21

Fredric Bartlett: through the lens of prediction
P.A. Hancock 30

The influence of Bartlett's work on Soviet and Russian ergonomics
V. Munipov, V. Zinchenko and M. Munipov 35

Role and challenges of ergonomics in modern societal contexts
P.C. Cacciabue 42

Emerging challenges to the ergonomics domain
D. Caple 49

From ergonauts to infonauts: 50 years of ergonomics research
K.A. Brookhuis 55

A future with less of a gap between rich and poor
L.B. de M. Guimarães and M.M. Soares 59

Multisensory interface design for drivers: past, present and future
C. Spence and C. Ho 65

Cognitive ergonomics: a multidisciplinary venture
J.-M. Hoc 71

Commenting on the commentators: what would Bartlett have made of the future past?
N.A. Stanton and R.B. Stammers 76

Appendix
Ergonomics Research Society: The Society's Lecture 1962
The Future for Ergonomics
Sir F.C. Bartlett

Volume 51 Number 2 February 2008

Articles

The influence of content, task and sensory interaction on multimedia quality perception
A.N. Rimell, N.J. Mansfield and D. Hands 85

Ergonomics evaluation of Picture Archiving and Communication System implementations in two X-ray departments
L. Lindbeck and U. Höglund 98

Perceived competence in computer use as a moderator of musculoskeletal strain in VDU work: An ergonomics intervention case
S. Tuomivaara, R. Ketola, P. Huuhtanen and R. Toivonen 125

The effect of a feedback signal in a computer mouse on hovering behaviour, productivity, comfort and usability in a field study
H. De Kraker, E.M. De Korte, F.L.K. Van Mil, B.P. Rijs and P.M. Bongers 140

Technical note

A new method for estimating hand internal loads from external force measurements
C.B. Irwin and R.G. Radwin 156

Articles

Application of pressure mapping techniques to measure push and gripping forces with precision
P. Lemerle, A. Klinger, A. Cristalli and M. Geuder 168

Ready steady push – a study of the role of arm posture in manual exertions
O.O. Okunribido and C.M. Haslegrave 192

Postural and subjective responses to realistic schoolbag carriage
H.W. Mackie and S.J. Legg 217

Seat adjustment capacity and repeatability among occupants in a modern car
B. Jonsson, H. Stenlund, M.Y. Svensson and U. Björnstig 232

Book reviews 242

Volume 51 Number 3 March 2008

Articles

Design of liquid container handles in accordance with user preferences
H.S. Jung and H.-S. Jung 247

Reality-based practice under pressure improves handgun shooting performance of police officers
R.R.D. Oudejans 261

Effects of pace and stress on upper extremity kinematic responses in sign language interpreters
J. Qin, M. Marshall, J. Mozrall and M. Marschark 274

Posture and performance: sitting vs. standing for security screening
C.G. Drury, Y.L. Hsiao, C. Joseph, S. Joshi, J. Lapp and P.R. Pennathur 290

The role of whole body vibration, posture and manual materials handling as risk factors for low back pain in occupational drivers
O.O. Okunribido, M. Magnusson and M.H. Pope 308

Surface slope effects on shingling frequency and postural balance in a simulated roofing task
S.D. Choi and T.K. Fredericks 330

Ergonomic study of a vertical rope-pulling task from a scaffolding
S.-P. Wu, C.-P. Ho and H.-C. Chi 345

Effect of block weight on work demands and physical workload during masonry work
H.F. Van Der Molen, P.P.F.M. Kuijer, P.P.W. Hopmans, A.G. Houweling, G.S. Faber, M.J.M. Hoozemans and M.H.W. Frings-Dresen 355

Representing situation awareness in collaborative systems: A case study in the energy distribution domain
P.M. Salmon, N.A. Stanton, G.H. Walker, D. Jenkins, C. Baber and R. McMaster 367

Effects of field-of-view restriction on manoeuvring in a 3-D environment
A. Toet, S.E.M. Jansen and N.J. Delleman 385

Technical note
Workspace zone differentiation and visualization for virtual humans
J. Yang, T. Sinokrot, K. Abdel-Malek, S. Beck and K. Nebel 395

Book reviews 414

Volume 51 Number 4 April 2008

Articles
Modelling of human alarm handling response times: a case study of the Ladbroke Grove rail accident in the UK
Neville A. Stanton and Christopher Baber 423

How practice produces suboptimal heuristics that render backup instruments ineffective
Robert J. Youmans and Stellan Ohlsson 441

The effects of solar radiation and black body re-radiation on thermal comfort
Simon Hodder and Ken Parsons 476

Differences in wearer response to garments for outdoor activity
R.M. Laing, S.T. Sims, C.A. Wilson, B.E. Niven and N.M. Cruthers 492

A three-dimensional anthropometric solid model of the hand based on landmark measurements
Matthew S. Rogers, Alan B. Barr, Boontariga Kasemsontitum and David M. Rempel 511

Do the feet of German and Australian children differ in structure? Implications for children's shoe design
Marlene Mauch, Karen J. Mickle, Bridget J. Munro, Annaliese M. Dowling, Stefan Grau and Julie R. Steele 527

A comparison of posture and muscle activity during tablet computer, desktop computer and paper use by young children
L.M. Straker, J. Coleman, R. Skoss, B.A. Maslen, R. Burgess-Limerick and C.M. Pollock 540

Inter-rater reliability of output measures for a posture matching assessment approach: a pilot study with food service workers
A.P. Cann, M. Connolly, R. Ruuska, M. MacNeil, T.B. Birmingham, A.A. Vandervoort and J.P. Callaghan 556

Perceived musculoskeletal symptoms among dental students in the clinic work environment
Linda J. Thornton, Ann E. Barr, Carol Stuart-Buttle, John P. Gaughan, Earlena R. Wilson, Andrea D. Jackson, Theresa C. Wyszynski and Claudia Smarkola 573

Book reviews 587

Volume 51 Number 5 May 2008

Articles

Secular changes in psychophysically determined maximum acceptable weights and forces over 20 years for male industrial workers
Vincent M. Ciriello, Patrick G. Dempsey, Rammohan V. Maikala and Niall V. O'Brien 593

The impact of operating heavy equipment vehicles on lower back disorders
Thomas Waters, Ash Genaidy, Heriberto Barriera Viruet and Mbulelo Makola 602

Does musculoskeletal discomfort at work predict future musculoskeletal pain?
Heleen H. Hamberg-van Reenen, Allard J. van der Beek, Birgitte M. Blatter, Maarten P. van der Grinten, Willem van Mechelen and Paulien M. Bongers 637

A physical demands analysis of the 24-week British Army Parachute Regiment recruit training syllabus
David M. Wilkinson, Mark P. Rayson and James L.J. Bilzon 649

Estimation of energy expenditure in a work environment: Comparison of accelerometry and oxygen consumption/heart rate regression
D.R. Bouchard and F. Trudeau 663

Evaluation of proper height for squatting stool
Hwa S. Jung and Hyung-Shik Jung 671

The effects of dynamic movement on seated reach arcs
Grady T. Holman, Jerry Davis and Saeed Maghsoodloo 691

Bone conduction reception: Head sensitivity mapping
Maranda McBride, Tomasz Letowski and Phuong Tran 702

The impact of background speech varying in intelligibility: Effects on cognitive performance and perceived disturbance
S.J. Schlittmeier, J. Hellbrück, R. Thaden and M. Vorländer 719

The synergic role of sociotechnical and personal characteristics on work injuries in mines
P.S. Paul and J. Maiti 737

Book reviews 768

Erratum 774

Volume 51 Number 6 June 2008

Articles

Designing information fusion for the encoding of visual–spatial information
Samuel M. Waldron, John Patrick, Geoffrey B. Duggan, Simon Banbury and Andrew Howes 775

Using cognitive work analysis to explore activity allocation within military domains
D.P. Jenkins, N.A. Stanton, P.M. Salmon, G.H. Walker and M.S. Young 798

The influence of rifle carriage on the kinetics of human gait
S.A. Birrell and R.A. Haslam 816

Field observations to determine the influence of population size, location and individual factors on pedestrian walking speeds
K.K. Finnis and D. Walton 827

Kinetic analysis of the thumb in jar-opening activity among female adults
Jer-Hao Chang, Kun-Yueh Ho and Fong-Chin Su 843

Estimation of forces exerted by the fingers using standardised surface electromyography from the forearm
Angela DiDomenico and Maury A. Nussbaum 858

Physical exposure differences between children and adults when using standard and small computer input devices
Janet M. Blackstone, Catherine Karr, Janice Camp and Peter W. Johnson 872

Changes in neck muscle electromyography and forward head posture of children when carrying schoolbags
M.H. Kim, C.H. Yi, O.Y. Kwon, S.H. Cho and W.G. Yoo 890

Electromyographic assessment of apple bucket intervention designed to reduce back strain
Giulia Earle-Richardson, Paul L. Jenkins, David Strogatz, Erin M. Bell, Andris Freivalds, Julie A. Sorensen and John J. May 902

Supracutaneous vibrotactile perception threshold at various non-glabrous body loci
Myriam Bikah, M. Susan Hallbeck and John H. Flowers 920

Development of an operational fitness test for the Royal Air Force
Victoria L. Richmond, Mark P. Rayson, David M. Wilkinson, James M. Carter, Sam D. Blacker, Alan Nevill, Jill Du Ross and Steve Moore 935

Book reviews 947

Volume 51 Number 7 July 2008

Articles

The effects of heuristic rule training on operator performance in a simulated process control environment
Jürgen Sauer, Dina Burkolter, Annette Kluge, Sandrina Ritzmann and Kerstin Schüler 953

Work organisation constructs and ergonomic outcomes among European forest machine operators
Jan Johansson Hanse and Jorgen Winkel 968

Blinks and saccades as indicators of fatigue in sleepiness warnings: looking tired?
R. Schleicher, N. Galley, S. Briest and L. Galley 982

Heat stress and bulkiness of chemical protective clothing impair performance of medical personnel in basic lifesaving tasks
Sirkka Rissanen, Irma Jousela, Jeong-Rim Jeong and Hannu Rintamäki 1011

Physical demands of firefighter search and rescue in ambient environmental conditions
V.L. Richmond, M.P. Rayson, D.M. Wilkinson, J.M. Carter and S.D. Blacker 1023

The effect of fatigue on trunk muscle activation patterns and spine postures during simulated firefighting tasks
Diane E. Gregory, Sonia Narula, Samuel J. Howarth, Caryl Russell and Jack P. Callaghan 1032

Low back injury risk during repositioning of patients in bed: the influence of handling technique, patient weight and disability
J. Skotte and N. Fallentin 1042

Effect of lifting height and load mass on low back loading
Marco J.M. Hoozemans, Idsart Kingma, Wiebe H.K. de Vries and Jaap H. van Dieën 1053

Subjective ratings of upper extremity exposures: Inter-method agreement with direct measurement of exposures
Bryan Buchholz, Jung-Soon Park, Judith E. Gold and Laura Punnett 1064

The size of cycle-to-cycle variability in biomechanical exposure among butchers performing a standardised cutting task
Pascal Madeleine, Michael Voigt and Svend Erik Mathiassen 1078

Forces required to operate controls on farm tractors: Implications for young operators
F.A. Fathallah, J.H. Chang, R.L. Berg, W. Pickett and B. Marlenga 1096

Operational and maximal workspace of the thumb
Jie Tang, Xudong Zhang and Zong-Ming Li 1109

Book reviews 1119

Volume 51 Number 8 August 2008

Articles

Validation of a short-term memory test for the recognition of people and faces
D. Leyk, A. Sievert, A. Heiss, W. Gorges, D. Ridder, T. Alexander, M. Wunderlich and T. Rüther 1125

Effects of tactile cueing on concurrent performance of military and robotics tasks in a simulated multitasking environment
J.Y.C. Chen and P.I. Terrence 1137

Adaptive coordination in cardiac anaesthesia: a study of situational changes in coordination patterns using a new observation system
T. Manser, Steven K. Howard and David M. Gaba 1153

The effects of a 1-year physical exercise programme on development of fatigue during a simulated ambulance work task
Ulrika Aasa, Karl-Axel Ängquist and Margareta Barnekow-Bergkvist 1179

The work compatibility improvement framework: an assessment of the worker–work environment interaction in the manufacturing sector
Ash M. Genaidy, Magda M. Rinder and Amal D. A-Rehim 1195

The Cochran–Weiss–Shanteau performance index as an indicator of upper limb risk assessment expertise
Claire A. Williams, Roger A. Haslam and David J. Weiss 1219

A systematic exploration of distal arm muscle activity and perceived exertion while applying external forces and moments
Michael Greig and Richard Wells 1238

Fatigue influences the dynamic stability of the torso
K.P. Granata and P. Gottipati 1258

Modelling foot height and foot shape-related dimensions
Shuping Xiong, Ravindra S. Goonetilleke, Channa P. Witana and Emily Yim Lee Au 1272

Book reviews 1290

Volume 51 Number 9 September 2008

Articles

Cardiovascular and eye activity measures as indices for momentary changes in mental effort during simulated flight
M. De Rivecourt, M.N. Kuperus, W.J. Post and L.J.M. Mulder 1295

The effect of sonification display pulse rate and reliability on operator trust and perceived workload during a simulated patient monitoring task
Randall D. Spain and James P. Bliss 1320

Investigation of task performance variations according to task requirements and alertness across the 24-h day in shift workers
E. Galy, C. Mélan and M. Cariou 1338

Computer- vs. paper-based tasks: Are they equivalent?
Jan M. Noyes and Kate J. Garland 1352

Comfort evaluation of maternity support garments in a wear trial
S.S. Ho, W. Yu, T.T. Lao, D.H.K. Chow, J.W. Chung and Y. Li 1376

An ergonomic comparison of firearm safety mechanisms
Michael A. Cornell and Mohammad T. Khasawneh 1394

Energy expenditure of cycle rickshaw pullers in different places in India
Chandan K. Pradhan, Sridhar Thakur, Ajay K. Mukherjee and Amal Roychowdhury 1407

Metabolic demands of simulated firefighting tasks
Kimberly L. Elsner and Fred W. Kolkhorst 1418

Effect of ship motion on spinal loading during manual lifting
Gert S. Faber, Idsart Kingma, Nico J. Delleman and Jaap H. van Dieën 1426

Effect of object width on precision grip force and finger posture
M. Domalain, L. Vigouroux, F. Danion, V. Sevrez and E. Berton 1441

Book reviews 1454

Erratum 1461

Volume 51 Number 10 October 2008

Articles

Measuring team skills in crime scene investigation: exploring ad hoc teams
P.A. Smith, C. Baber, J. Hunter and M. Butler 1463

Augmenting understanding of the relationship between situation awareness and confidence using calibration analysis
Frederick M.J. Lichacz 1489

Use of pressure insoles to compare in-shoe loading for modern running shoes
S.J. Dixon 1503

The effects of a lower body exoskeleton load carriage assistive device on limits of stability and postural sway
Jeffrey M. Schiffman, Karen N. Gregorczyk, Carolyn K. Bensel, Leif Hasselquist and John P. Obusek 1515

Little effect of transfer technique instruction and physical fitness training in reducing low back pain among nurses: A cluster randomised intervention study
S. Warming, N.E. Ebbehoj, N. Wiese, L.H. Larsen, J. Duckert and H. Tonnesen 1530

A neural network model for predicting postures during non-repetitive manual materials handling tasks
Miguel A. Perez and Maury A. Nussbaum 1549

Energy cost and mechanical efficiency of riding a human-powered recumbent bicycle
Carlo Capelli, Luca Paolo Ardigò, Federico Schena and Paola Zamparo 1565

The role of contextual factors for musculoskeletal disorders in the New Zealand meat processing industry
D.C. Tappin, T.A. Bentley and A. Vitalis 1576

Wrist strength is dependent on simultaneous power grip intensity
Na Jin Seo, Thomas J. Armstrong, James A. Ashton-Miller and Don B. Chaffin 1594

Infrared imaging of the anterior deltoid during overhead static exertions
Ian Bertmaring, Kari Babski-Reeves and Maury A. Nussbaum 1606

Book reviews 1620

Volume 51 Number 11 November 2008

Articles

Identifying violation-provoking conditions in a healthcare setting
Denham L. Phipps, Dianne Parker, Elisah J.M. Pals, George H. Meakin, Chidozie Nsoedo and Paul C.W. Beatty 1625

The classification of vigilance tasks in the real world
Fiona M. Donald 1643

Rail signallers' assessments of their satisfaction with different shift work systems
B. Ryan, J.R. Wilson, S. Sharples, F. Kenvyn and T. Clarke 1656

Validation of a three-dimensional hand scanning and dimension extraction method with dimension data
Zhizhong Li, Chien-Chi Chang, Patrick G. Dempsey, Lusha Ouyang and Jiyang Duan 1672

Sex-related differences in foot shape
I. Krauss, S. Grau, M. Mauch, C. Maiwald and T. Horstmann 1693

Haptic gas pedal feedback
M. Mulder, M. Mulder, M.M. Van Paassen and D.A. Abbink 1710

An analysis of sprain and strain injury data for the New Zealand meat processing industry from national and industry injury surveillance databases
D.C. Tappin, T.A. Bentley, A. Vitalis and K. Macky 1721

Effect of a desk attachment board on posture and muscle activity in women during computer work
Geneviève A. Dumas, Tegan R. Upjohn, Andrew Leger, Alain Delisle, Karine Charpentier, André Plamondon and Erik Salazar 1735

Effects of a feedback signal in a computer mouse on movement behaviour, muscle load, productivity, comfort and user friendliness
E.M. de Korte, H. de Kraker, P.M. Bongers and P. van Lingen 1757

Oxygen consumption prediction models for individual and combination materials handling tasks
Patrick G. Dempsey, Vincent M. Ciriello, Rammohan V. Maikala and Niall V. O'Brien 1776

Book reviews 1790

Volume 51 Number 12 December 2008

SPECIAL ISSUE: SLIPS, TRIPS AND FALLS
GUEST EDITOR: WEN-RUEY CHANG

Preface
Wen-Ruey Chang 1797

Articles
Impact of joint torques on heel acceleration at heel contact, a contributor to slips and falls
K. Beschorner and R. Cham 1799

Kinematics and kinetics of gait on stilts: Identification of risk factors associated with construction stilt use
Sharon S. Chiou, Christopher S. Pan and Amit Bhattacharya 1814

Lower extremity preventive measures for slips – joint moments and myoelectric analysis
Daniel Tik-Pui Fong, Youlian Hong and Jing-Xian Li 1830

Stepping over obstacles of different heights and varied shoe traction alter the kinetic strategies of the leading limb
Jeremy James Houser, Leslie Decker and Nicholas Stergiou 1847

Differentiating fall-prone and healthy adults using local dynamic stability
Thurmon E. Lockhart and Jian Liu 1860

Effects of lower extremity muscle fatigue on the outcomes of slip-induced falls
Prakriti Parijat and Thurmon E. Lockhart 1873

Footwear effects on walking balance at elevation
Peter Simeonov, Hongwei Hsiao, John Powers, Douglas Ammons, Alfred Amendola, Tsui-Ying Kau and Douglas Cantis 1885

Evaluation of a comprehensive slip, trip and fall prevention programme for hospital employees
Jennifer L. Bell, James W. Collins, Laurie Wolf, Raoul Grönqvist, Sharon Chiou, Wen-Ruey Chang, Gary S. Sorock, Theodore K. Courtney, David A. Lombardi and Bradley Evanoff 1906

Studying work practices: a key factor in understanding accidents on the level triggered by a balance disturbance
C. Derosier, S. Leclercq, P. Rabardel and P. Langa 1926

Slip, trip and fall injuries in potato, sugar beet and open field vegetable production in Finland
Tiina E.A. Mattila, Kim O. Kaustell, Risto H. Rautiainen, Timo J. Pitkänen, Timo Lötjönen and Juha Suutarinen 1944

A matched case–control study of circumstances of occupational same-level falls and risk of wrist, ankle and hip fracture in women over 45 years of age
Santosh K. Verma, David A. Lombardi, Wen-Ruey Chang, Theodore K. Courtney and Melanye J. Brennan 1960

Visually based perceptions of slipperiness: Underlying cues, consistency and relationship to coefficient of friction
Mary F. Lesch, Wen-Ruey Chang and Chien-Chi Chang 1973

The effect of contact area on friction measured with the portable inclinable articulated strut slip tester (PIAST)
Wen-Ruey Chang, Mary F. Lesch and Chien-Chi Chang 1984

Friction variation in common working areas of fast-food restaurants in the USA
Wen-Ruey Chang, Kai Way Li, Alfred Filiaggi, Yueng-Hsiang Huang and Theodore K. Courtney 1998

Improving the cleaning procedure to make kitchen floors less slippery
F. Quirion, P. Poirier and P. Lehane 2013
